

PSYCHOLOGICAL PROSTHETICS™

HELPING YOU HANDLE YOUR EMOTIONAL BAGGAGE
IN POLITICAL TIMES

REPAIR APATHY • UTILIZE GUILT • BANDAGE SHAME • TRANSFORM
HELPLESSNESS • ACTIVATE OUTRAGE • COLLECTIVIZE DEPRESSION

Founded in 2005 **PSYCHOLOGICAL PROSTHETICS™** investigates new ways to map political feelings. We use corporate marketing strategies and guerrilla tactics to make connections between personal emotions and the political state. We make art that opens investigation, starts debate and links the politics of private self to public lives.

Artists Dee Hibbert-Jones and Nomi Talisman fabricate objects, design posters, fliers, installations and performances under the trademark **PSYCHOLOGICAL PROSTHETICS™**, all on an artist's budget. We invite you to join us in developing conversations, suggesting new products, surveys and actions. Please email us via our website

PSYCHOLOGICAL PROSTHETICS™

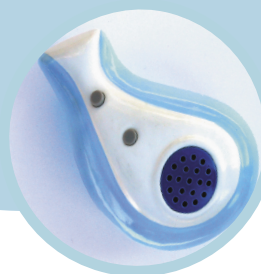

PSYCHOLOGICAL PROSTHETICS™ products help you identify, handle and control your political feelings in these troubled times. Psychological Prosthetics™ provides a range of services to help you explore your political emotions from anxiety and guilt to outrage, helplessness and regret.

Why stuff you political feelings when you can choose from our Delux and Economy services? Choose our 30 second Rant Recorder™ (explore your outrage), our instant PP Band Aid™ (bandage shame, soothe apathy), or our custom designed suitcases PP Valise™ to discreetly handle your emotional baggage in these political times.

FAQ

Does **PSYCHOLOGICAL PROSTHETICS** really work?

Used daily our products help you explore your political feelings. Take our diagnostic survey, find relief with our haptic devices, or help us design a suitcase. All Psychological Prosthetics' products come with a 100% money back guarantee.

How do we do it?

You help us extend Psychological Prosthetics. We work with you to map your political emotions in a time of fear, guilt and stress.

Are there any side effects?

While Psychological Prosthetics helps control political feelings in the short term, prolonged use of our products may result in irritation, desires for collective action, protest and change. Psychological Prosthetics may be used in combination with any other medications. Psychological Prosthetics does not cause headaches, dizziness or fainting.

Are you kidding me?

Psychological Prosthetics may cause amusement in some users and yes we welcome the ludicrous. However we are serious about exploring the politics of anxiety, depression, helplessness, shame and guilt in this time of political crisis.

PSYCHOLOGICAL PROSTHETICS

is available through select gallery & trade show installations, worldwide street surveys, trainee workshops and our website.
